Rental Power

Where The World Turns **For Power.**

Failure is never an option. Count on **Entertainment Services to deliver the best performance you'll never see.**

Entertainment Services is a worldwide provider of temporary power generation and temperature control equipment for any and all of your entertainment needs. No job is too large or too small to benefit from our standard of high quality equipment.

In addition to state-of-the-art equipment, **Entertainment Services** offers fully integrated, value-added services, including planning, technical advice, customized installation, on-site operation and support personnel. Our staff of professionals and technicians is committed to providing Caterpillar-quality customer service and maintaining a standard of excellence exceeded by none.

Headquartered in St. Augustine, Florida with supporting offices in Orlando and Tampa; Dallas, Texas; Los Angeles, California; Kenilworth, New Jersey and North Kingstown, Rhode Island, **Entertainment Services** can provide temperature control to a single tent or electric power to an entire stadium.

Our primary business categories are:

- **Concert Touring**
- **Corporate Events**
- **Film/Video**
- **Special Events**
- **Broadcast/Cable**

POWER GENERATION AND DISTRIBUTION

Whether you're a corporation setting up an event for 100 employees or a concert tour setting up an arena for 20,000 fans, you need a supplier who knows his business ... and yours. Entertainment Services has the equipment, engineers and factory trained technicians to configure and maintain it, twenty-four hours a day seven days a week. From sizing and specifying to delivery and installation, our experienced, skilled personnel are prepared to take care of the equipment so the show can go on.

Entertainment Services is a leader in providing efficient, environmentally friendly and money-saving rental power. Since the environment has become an increasing concern, our products are EPA-emissions certified and sound attenuated to reduce noise pollution, with fuel and fluid secondarily contained on certain models.

TEMPERATURE CONTROL

It doesn't matter if your corporate event is large or small, at single or multiple locations simultaneously, or you're filming on a set or on location, Entertainment Services can ensure you keep your cool with our expertise in temperature control. Temperature control is a key factor in the lifespan, productivity and minimizing the downtime of your equipment.

Entertainment Services technicians can offer you innovative temperature control solutions for your specific event applications, from a single tent to an entire stadium. Our engineers and factory trained technicians understand the special events industry and the unique problems that can arise when planning an event, and will work hard to anticipate them.
